

# Integrated watermanagement Katwijk

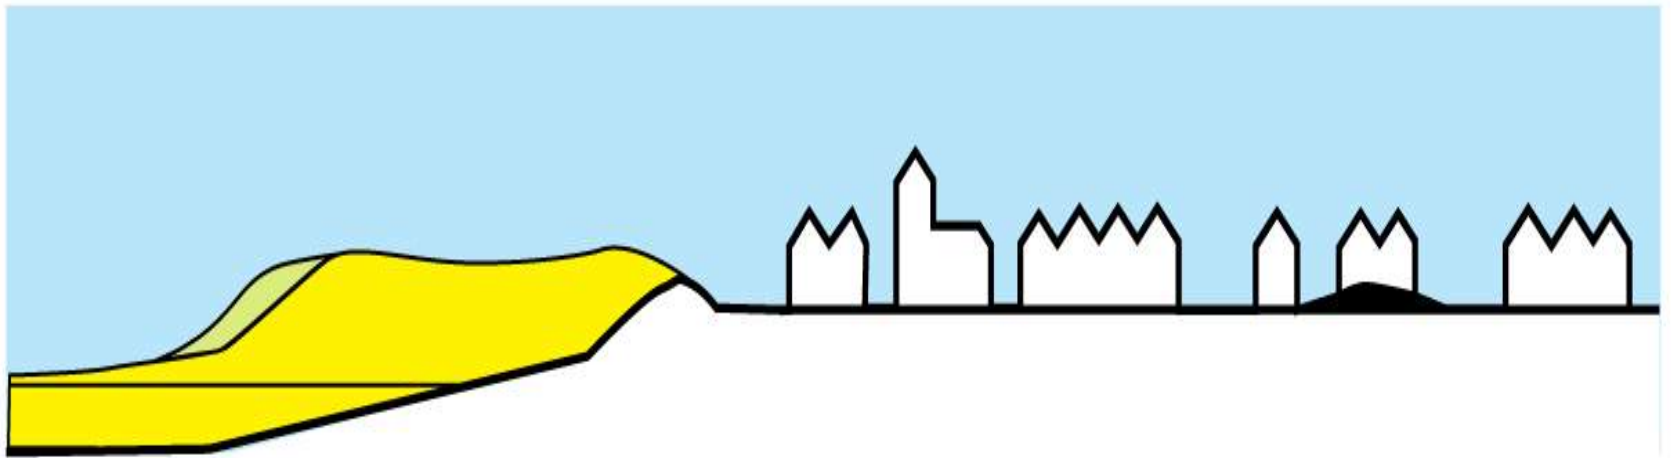

Ing. J. Remijn, projectmanager

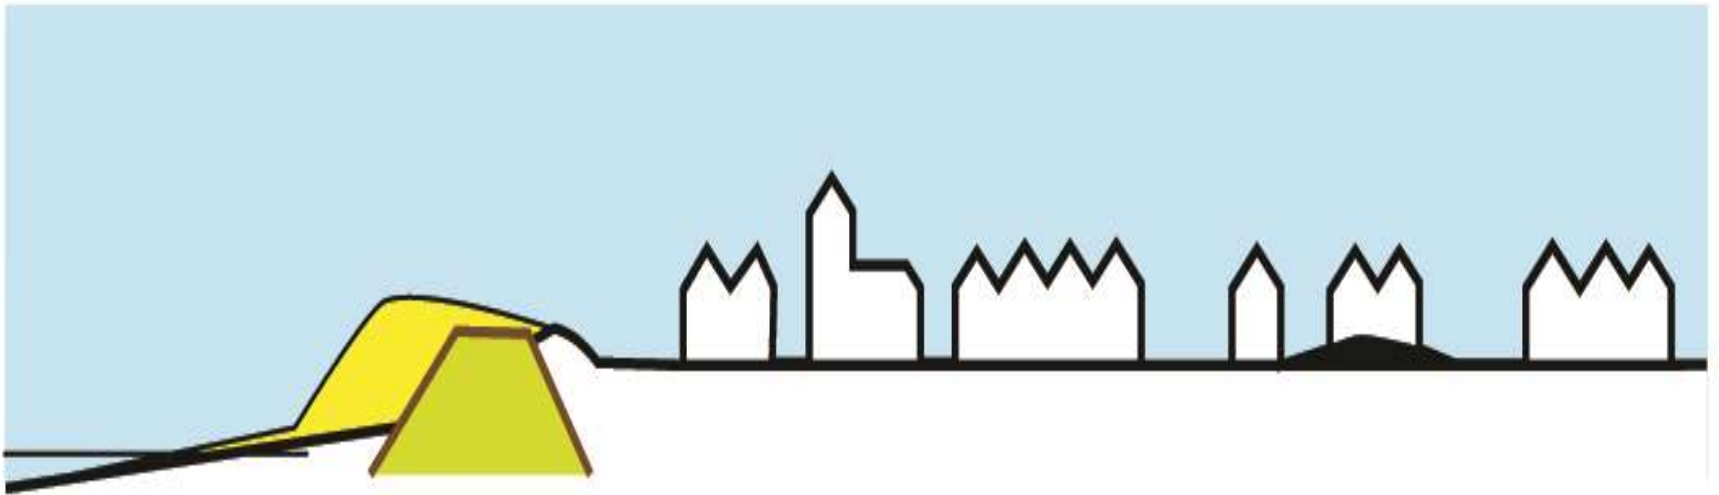

# How we select the best solution?

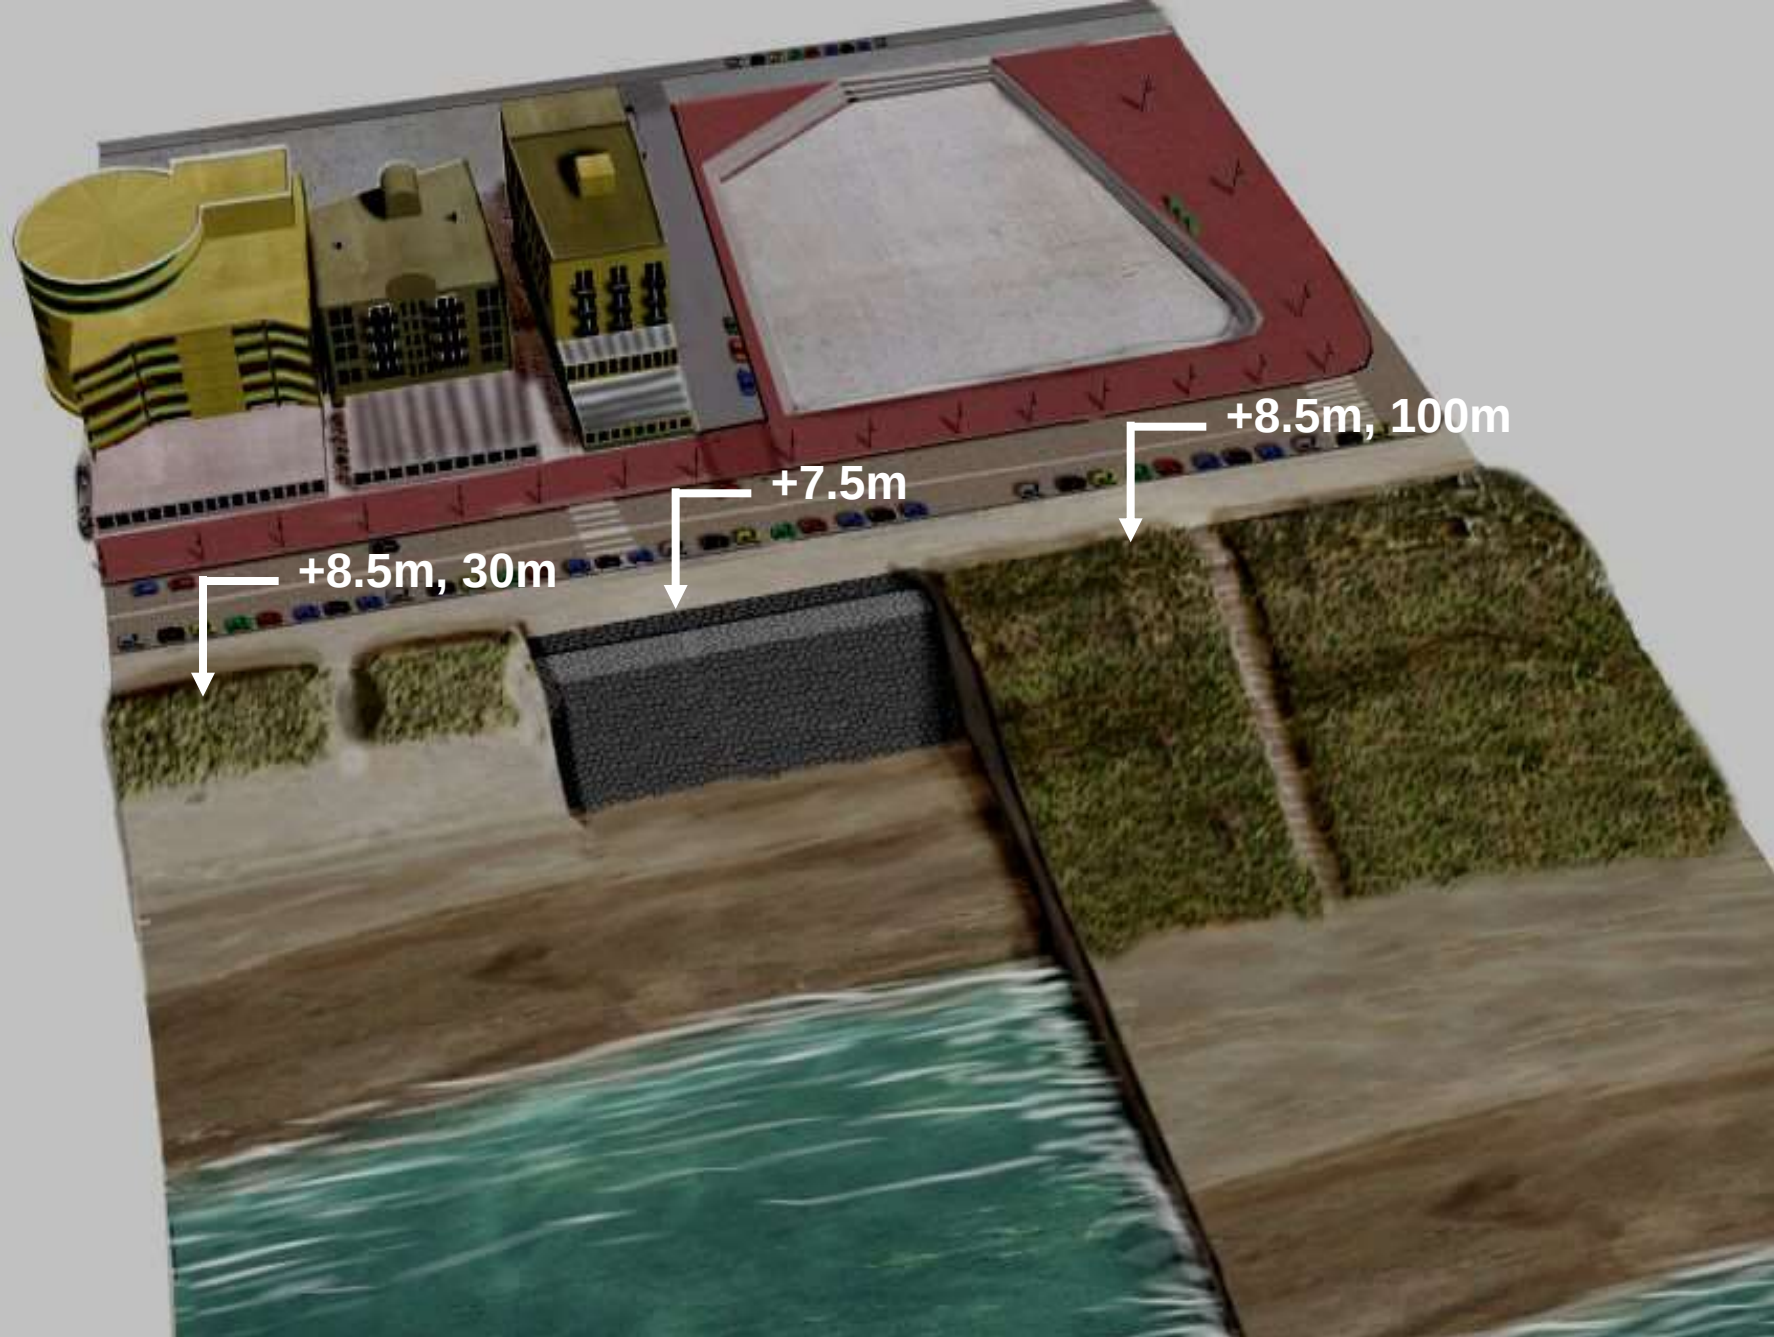

- Environmental Impact Assessment
  - Safety/sustainability
  - Living- and social environment
  - Green areas (incl. archaeology and cultural history)
- Social cost-benefit analysis
- Organise the creative process

# Katwijk: solutions in sand

# Katwijk: hybrid solutions

# Katwijk: impression of solutions

Existing  
situation

High dune

Hybrid  
solution

# Organisation of the creative process

3D-visiongame: creating innovative solutions

# Targets vision game

- Stimulate cooperation between stakeholders
- Find solution with support
- No words but images
- Negotiation between stakeholders

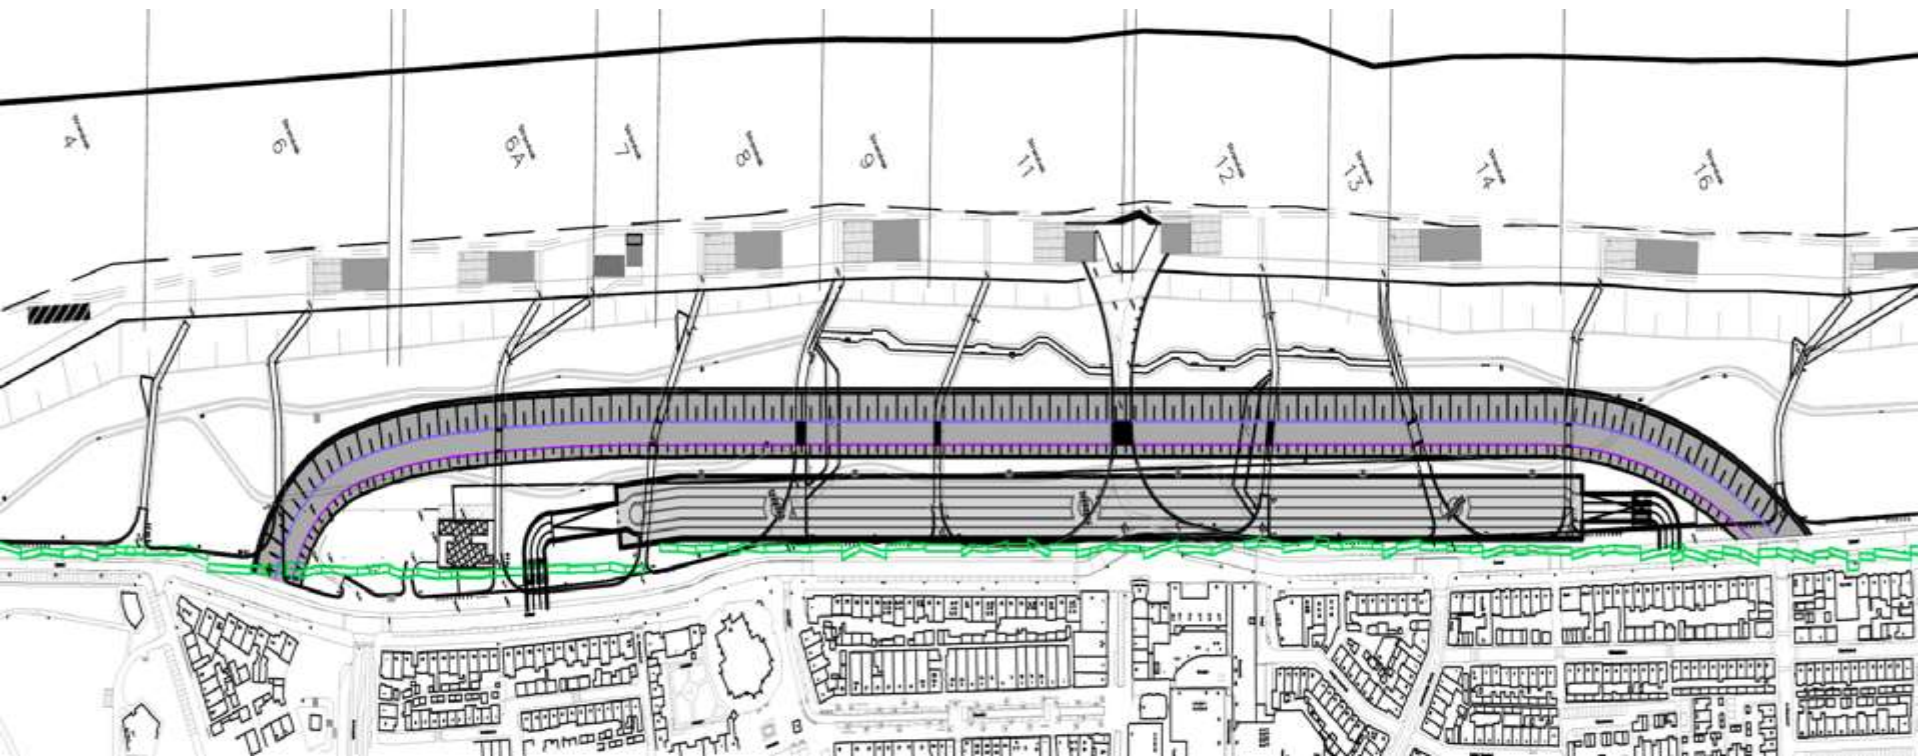

# Examples results

# Invention of a parking place in a dune

# Integrating sustainability and adding spatial value
